

MAGA Update 05

Well, we have a new Pope! But it's not "Donald Trump", as a picture of him depicted on his social media platform! Talk about an "ego trip". LMAO!

He hasn't stopped the war in Ukraine, he hasn't brought down the price of groceries, he hasn't made anything "Great Again"!

He has been selling "America". You can now buy his Coins and get access to the Whitehouse. Buy his Bible, buy his Sneakers, buy his Guitars, buy stock in his Bitcoin Company, or donate to his many other "Enterprises", and you win favor with him, "Bigly"!

He's been "Gutting Freedoms". Freedom of speech is gone if you're speaking against him. Freedom of U.S. Birthright Citizenship is gone if your parents are Illegal Immigrants, even if they came here legally.

Everything I warned about in my book has come true. He is not now, nor has he ever been, a "Great Businessman". He only makes deals because he bullies people. They don't have much of a choice. And now he's doing it to the World! Is that what you voted for?
