

MAGA Update 06

WAKE UP AMERICA! HE'S STILL SCAMMING YOU!!!!

After 6 months in office, Trump is still scamming the American people and the World! He keeps flip-flopping on his tariffs, he hasn't lowered prices on anything, he's still bullying both chambers of Congress, he hasn't made any progress in stopping the war in Ukraine, he's not just deporting gangs and criminals, he's still lying to the press about everything, and he can't take any criticism from anybody!

He did get his "Big Beautiful Bill" passed to give the richest people in the country a huge permanent tax break, he did break his promise about not cutting benefits from Medicare, he did wiggle his way out of keeping many of his campaign promises, and the list goes on!

His bromance with Elon Musk ended like many "Love At First Sight" affairs do! Bitterly! His bromance with Putin has also deteriorated. He's destroyed the integrity of the Justice System, he's ignored many orders by the judiciary, he's destroyed the FBI and many other federal agencies with massive layoffs or forced retirements! Other than that, things are bad!

More details coming soon!
